

File comments with the FCC opposing the weakening of Indiana's law.

I have elected to be placed on Indiana's no call list for a reason. I do not want businesses calling me at home. If I need assistance or want to purchase something, I will call the appropriate company. Please do not allow this to happen. The past two years have been very nice at home. I do not receive unwanted – unsolicited calls. I pay for my phone service – therefore it should not be just free to others who want to utilize MY service for their benefit.

Please do not permit any lobbying group to invade my privacy.
